Criqui, European Featherweight

By Jack Lawrence

Tex Rickard, acting for Madison Square Garden, started operations hearted debate. yesterday with a view to having Eugene Criqui, featherweight champion of Europe, appear here during January or February. While Rickard is not laboring under the impression that Criqui is any such figure in the world of boxing that Georges Carpentier was, the promoter believes that the Frenchman's remarkable record in the ring since the close of the war has made him a desirable entry for a bout in New York. Winged Foot Links Rounds Out Activities of New York A. C.

New 36-Hole Course Just Completed Means That Local Organization Will Be Second to None: Club Professional Selection Practically Made

By Ray McCarthy

The addition of the Winged Foot Golf Club will just about make the New York A. C. the greatest athletic organization in the country. The Olympic Club of San Frnacisco, one of the oldest athletic clubs in to United States, was the first to add golf to its program. The Olympic Os has one of the finest courses in the country, and one of the best seed courses to be found anywhere.

When you go to Nan Francisco the members immediately point out that they are lacking in mothing pertaining to sports. They take great pride in their golf and their course.

But it appears as if the New York club has take nthe lead, even in this game of golf. The local organization now has two beautiful lay-outs, complete in every detail. They will be opened for play in May, and from that time on you can expect to hear a greut deal of the New York Athletic Club in golf. For even the Olympic members do not equal the New Yorkers in enterprise or in energy.

The two courses of the winged foot, as you probably know, have been laid out on the old Parker estate, in Mamaroueck. Colonel A. W. Tillinghast was the designer, the architect and the general supervisor. He has done his work well.

The limit of the winged foot mem-

eral supervisor. He has done his work well.

The limit of the winged foot membership has been placed at 600. This quota is nearly complete, and if any of the 6,000 N. Y. A. C. members who are thinking of joining have not already done so they will have to hustle to get in before the bars are put up. That's not a catch line. Just a mere statement of facts.

Only New York Athletic Glab members, of course, are allowed to belong to the winged foot golf club. Women will be allowed to pla ywith members on one course only. One week the ladies will be extended the privileges of the east course, the next work they will be allowed on the west course. But under ne circumstances will they be permitted to play both courses at the same time.

regular, reserve and National Guard units.

The competition for the 2d Corps area is divided into three districts. The northern group will include posts, camps and stations north of Pough-keepsie, the central group the remainder of New York State, and the southern group all posts, camps and stations in the states of New Jersey and Delaware and Fort Wadsworth and Miller Field.

The sports provided for are baskethall, boxing, track and field and basehall. The boxing divisions include all weights from fly to heavy. Track and field sports include running races in the standard distances from 100-yard dash to mile run, and three-mile run where practicable; also pole vauit, shot-put, discus throw, javelin throw relay races, hurdles and high junp.

It is proposed to have both a baseball and basketball climination series, with a championship series for each played off in the vicinity of New York City.

Besides the contests between the three-branches of the army, contests also will be held between army and civiling teams or contestants in the various lefuland. The funds needed for athletics will. The funds needed for athletics will has already qualified three members.

What is more, this enterprising and exceedingly progressive organization has already begun construction of a new lay-out of eighteen holes which will adjoin the old course.

When you go to San Francisco the mander Babbitt got a "ene" on the fourth hole. Later, Con mander Babbitt got a "ene" on the fourth hole. And last Thanksgin Duy Max Bernstein, the club seem tary, holed his mashie pitch to the fourth green. This hole measures is yards.
